

## Csmart Synapse for MVNOs

A SaaS BSS to Drive Your Digital Brand with  
Limitless Opportunities

---

# Overview

In today's telecommunications market, MVNOs are looking to offer innovative services to expand revenue sources and maximize ROI to stay competitive. Many MVNOs are transforming themselves into digital entities to capitalize on emerging technologies like 5G & IoT.

To go digital and to stay competitive, MVNOs need a cloud native digital platform that can provide the required functionality, flexibility and operational agility. Csmart Synapse can help MVNOs to manage complete digital customer experience from Concept to Cash to Care.

## Csmart Synapse – A SaaS BSS Platform

Csmart Synapse enables MVNOs to benefit from a wide a range of functionalities, integration, and deployment models by combining experience with leading telecom operators and systems integration expertise. The platform supports all segmented MVNOs (consumer, enterprise, IoT, etc.) and provides functionalities required to grow from light MVNO to full MVNO, and further become an MVNA and/or MVNE at the same time.

Csmart Synapse presents a pre-integrated suite of 21 digital products, also available individually on SaaS. This allows MVNOs to modernize operations, offering the same functionalities as leading MNOs and providing a competitive edge.

# ★ Key Features

- ★ An end-to-end SaaS BSS platform encompassing the entire Concept-to-Cash-to-Care processes
- ★ Zero-touch order orchestration
- ★ Multi-tenant, multi-language and multicurrency support
